Chapter 4: Patterns (Part 2)

Computed Pattern

Problem:

Which one of the following scenarios is best suited for the application of the Computed Pattern?

Attempts Remaining: **Correct Answer**

Choose the best answer:

- ☐ We need to group documents and sum on a field.
- ☒ We need to calculate a value that is displayed 100 times a minute and is based on a field which updates once a minute.
- ☐ We need to calculate a value that is displayed once per minute and is based on a field which updates 100 times per minute.
- ☐ We need to calculate a value that is displayed 100 times a minute and is based on a field which updates 100 times per minute.
- ☐ We have too much information to store in a single document.

Correct!
