

## Lab 2.2: How Many Inserted?

Problem:

If the collection video.myMovies is currently empty, how many documents would be inserted by the following call to insertMany().

```
db.myMovies.insertMany(  
  [  
    {  
      "_id" : "tt0084726",  
      "title" : "Star Trek II: The Wrath of Khan",  
      "year" : 1982,  
      "type" : "movie"  
    },  
    {  
      "_id" : "tt0796366",  
      "title" : "Star Trek",  
      "year" : 2009,  
      "type" : "movie"  
    },  
    {  
      "_id" : "tt0084726",  
      "title" : "Star Trek II: The Wrath of Khan",  
      "year" : 1982,  
      "type" : "movie"  
    },  
    {  
      "_id" : "tt1408101",  
      "title" : "Star Trek Into Darkness",  
      "year" : 2013,  
      "type" : "movie"  
    },  
    {  
      "_id" : "tt0117731",  
      "title" : "Star Trek: First Contact",  
      "year" : 1996,  
      "type" : "movie"  
    }  
  ],  
  {  
    ordered: false  
  }  
) ;
```

Attempts Remaining: **Correct Answer**

☐ 1

☐ 2

☐ 3

☒ 4

☐ 5

Correct!
