Chapter 1: Introduction

Lab: Installing Vagrant

[< Back to the Question](#)

To solve this answer, you'll need to unpack the handout and vagrant up.

```
unzip m312-vagrant-env.zip  
vagrant up  
vagrant ssh
```

 COPY

Then, in the environment,

```
hostname -f
```

 COPY

And the answer is `m312.mongodb.university`.
