### Chapter 3: Patterns (Part 1)

## Guide to Homework Validation

---

**Problem:**

Please follow the steps outlined in this lecture and included in the lecture notes.

**To run the validator for the example lab on Windows, run the following command:**

```
validate_m320 example --file answer_schema.json
```

COPY

**To run the validator for the example lab on MacOS and Linux, run the following command:**

```
./validate_m320 example --file answer_schema.json
```

COPY

Then, paste the validation code from the example lab into the text box below and hit the submit button.

**Attempts Remaining:** **Correct Answer**

**Enter answer here:**

5d124f9bd971a774b97b5fc7

Correct!
