Final Exam

Final: Question 1

[Back to the Question](#)

The correct statements are the following:

- **Pipeline 3** fails because `$indexStats` must be the first stage in a pipeline and may not be used within a `$facet`

`$indexStats` must be the first stage in an aggregation pipeline and cannot be used within a `$facet` stage.

- **Pipeline 1** fails since `$out` is required to be the last stage of the pipeline

`$out` is required to be the last stage of the pipeline.

- **Pipeline 2** is incorrect because `$geoNear` needs to be the first stage of our pipeline

`$geoNear` is required to be the first stage of a pipeline.

All other statements are incorrect.
