

Lecture Instructions

Show collections in m103 database:

```
use m103
show collections
```

 COPY

Enable sharding on the m103 database:

```
sh.enableSharding("m103")
```

 COPY

Find one document from the products collection, to help us choose a shard key:

```
db.products.findOne()
```

 COPY

Create an index on sku:

```
db.products.createIndex( { "sku" : 1 } )
```

 COPY

Shard the products collection on sku:

```
sh.shardCollection("m103.products", {"sku" : 1 } )
```

 COPY

Checking the status of the sharded cluster:

```
sh.status()
```
