

## Lecture Instructions

User management commands:

```
db.createUser()  
db.dropUser()
```

 COPY

Collection management commands:

```
db.<collection>.renameCollection()  
db.<collection>.createIndex()  
db.<collection>.drop()
```

 COPY

Database management commands:

```
db.dropDatabase()  
db.createCollection()
```

 COPY

Database status command:

```
db.serverStatus()
```

 COPY

Creating index with Database Command:

```
db.runCommand(  
  { "createIndexes": <collection> },  
  { "indexes": [  
    {  
      "key": { "product": 1 }  
    },  
    { "name": "name_index" }  
  ]  
}  
)
```

 COPY

Creating index with Shell Helper:

 COPY

```
db.<collection>.createIndex(  
  { "product": 1 },  
  { "name": "name_index" }  
)
```

Introspect a Shell Helper:

```
db.<collection>.createIndex
```
