Chapter 1: Introduction

Lab: Installing Vagrant

Problem:

In this lab, you will set up your vagrant environment. If you've already done it, then you should be all set.

Once your vagrant environment is running, ssh in, and run the following command:

```
hostname -f
```

COPY

Type the output of this command below, and submit your answer.

Attempts Remaining: **Correct Answer**

Enter answer here:

```
m312.mongodb.university
```

Correct!
