Chapter 5: Conclusion

Final Exam: Question 9

< **Back to the Question**

Correct Option

- *The Bucket Pattern*

  The *Bucket* pattern allows us to record data in hour interval documents, which can then be stored in yearly collections. This makes it easy to store, analyze, and purge the data within the given time requirements.

Incorrect Options

- *The Computed Pattern*
- *The Extended Reference Pattern*
- *The Polymorphic Pattern*
- *The Subset Pattern*
