Chapter 5: Conclusion

Final Exam: Question 8

< **Back to the Question**

Correct Option

- *The Computed Pattern*

  The Computed Pattern allows your application to calculate values at write time. In this case, the sum of the number of views would be calculated in a rolling fashion by book genre.

Incorrect Options

- *The Bucket Pattern*
- *The Extended Reference Pattern*
- *The Polymorphic Pattern*
- *The Subset Pattern*
