Final Exam
Question 5

Problem:
Which of the following statements is/are true?

Attempts Remaining: **Correct Answer** ✅ ⚪ ⚪

Check all answers that apply:

☑ MONGODB-CR still exists in MongoDB only for backwards compatibility reasons.

☑ MongoDB drivers will send LDAP credentials to a connected `mongod` in plain text.

☐ `kadmin` exists solely to enable command line authentication to Kerberos.

☑ It is a best practice to leave the HTTP status interface disabled in production.

☐ You can use LDAP to enable internal authentication between the members of a replica set.
