Chapter 5: Conclusion

Final Exam: Question 12

< **Back to the Question**

Correct Option

- *The Subset Pattern*

  In this case, it seems that the application is slowing down because of the amount of data that is being retrieved each time an item is accessed. To eliminate this issue, the Subset Pattern would be a perfect solution. We can store the **Material Safety Data Sheets** in a separate collection and only access them when it is necessary.

Incorrect Options

- *The Bucket Pattern*
- *The Computed Pattern*
- *The Extended Reference Pattern*
- *The Polymorphic Pattern*
