Chapter 1: The Mongod

Logging Basics

Problem:

Which of the following process logging components will capture the following operation, assuming a verbosity of 1 or greater?

```
db.runCommand(
  {
    update: "products",
    updates: [
      {
        q: <query>,
        u: <update>,
      }
    ]
  }
)
```

COPY

Attempts Remaining: **Correct Answer**

Check all answers that apply:

☐ UPDATE

☐ QUERY

☑ COMMAND

☑ WRITE
